2017-18 Academic Year Information

Faculty are responsible for supporting GDBBS students according to the scenarios below.

1. **PhD** student who has reached their 22\textsuperscript{nd} month in the program.

2. **MD/PhD** student who has reached their 10\textsuperscript{th} month in the program.

3. **Students** transferring with faculty, who will obtain an Emory degree – Faculty are responsible for stipend and sponsor tuition costs from point of enrollment.

   The below pertains to items 1 – 3 above:

   **Sponsor Tuition** - Currently $5,491 annually; charged monthly, $458.00. This fee may be waived if the student receives a grant/fellowship that minimally supports $5,491 of tuition costs.

   **Stipend** - Currently $30,000 annually; charged monthly, $2,500. If the student receives a grant/fellowship that supports stipend the faculty will be responsible for the difference the grant does not support so that the student receives $30,000 minimally.

4. **Transient** students transferring with faculty, who will not obtain an Emory degree:

   **Stipend** - The amount and source of the student stipend is determined by the Emory advisor and the host graduate program. If the student receives their stipend from Emory the faculty will be charged sponsor tuition, $5,491 annually; charged monthly, $458.00. These students would be eligible to enroll in Emory’s Student Health Insurance Plan. If the stipend is paid by the host graduate program the sponsor tuition is not charged and the student is not eligible to enroll in Emory’s Student Health Insurance Plan.
